Course Description Form

The course description provides a summary of the most important characteristics of the course and the learning outcomes expected of the student to achieve and demonstrate whether they have made the most of the available learning opportunities. It must be linked to the description of the program.

1. College	Islamic Sciences
2. Scientific Department	Department of Quranic Sciences
3. Teaching Name	Assist. lect. Mustafa Riad Abbas
4. Stage	First
5. Course Name / Code	English
6. Semester / Year	First / 2024-2025
Number of Hours .7 (Total)	30
Date this description .8 was prepared	7/8/2024
9. Course Objectives	
1- Use slightly advanced everyday expressions and speak more confidently in different life situations.	
2. Understand and apply more complex rules such as continuous tenses, negation forms, and simple conjunctions.	
3- Develop listening skills to understand simple conversational texts and tell short stories.	

4- Reading short texts and understanding their basic meanings.

5- Write short sentences and paragraphs taking into account the correct rules.

10. Course Outcomes, Teaching, Learning and Assessment Methods

A- Cognitive Objectives .

1. Familiarize yourself with basic and slightly advanced grammar.
- 2- Expanding the vocabulary repository.
- 3- Analysis and understanding of short texts.
- 4- Construct sentences and paragraphs correctly.
- 5- Simple critical thinking.

B . Course-specific Skill Objectives

1. Listening skills.
- 2- Speaking skills.
- 3- Reading skills.
- 4- Speech skills.
- 5- Writing skills.

Teaching and Learning Methods

1. Direct explanation and clarification.

2- Interactive Learning

3. Use of multimedia

4- Individual and group exercises

5. Task-Based Learning

6. Self-learning and self-assessment

7- Feedback

C. Emotional and Values Goals

1. Promote a love of English and a desire to learn it.
2. Build self-confidence in the use of language.
3. Respect for different cultures.
4. Developing the spirit of cooperation and teamwork.

Course Description Template

The course description provides a summary of the most important characteristics of the course and the learning outcomes expected of the student to achieve, demonstrating whether they have made the most of the available learning opportunities. It should be linked to the description of the program.

1. College	Islamic Sciences
2. Scientific Department	Quranic Sciences
3. Teaching Name	Assist.Lect . Asaad Badri Aziz
4. Stage	Second in the morning - two in the evening
5. Course Name/Code	Foundations of education
6. Semester/Year	Second 2024-2025
7. Number of Hours (Total)	2 Hours
8. Date of this description	2/ 2/ 2025
9. Course Objectives	
A- The foundations of education aim to help the student about self-actualization to the point where the student can look at himself and be satisfied with what he is looking at. Therefore, the purpose of counseling is self-direction, i.e., to achieve the individual's ability to direct his life by	

himself, intelligently, insightfully, and efficiently within the limits of social norms.

The student should be familiar with the concept of the foundations of education and his areas of interest and study.

The student should identify the meaning of educational goals, classify them and convert them into educational goals.

The student should understand the meaning of memory, its nature, and its role in teaching.

The student should learn about the importance of motivation in the field of the foundations of education.

To get to know the student understands the meaning of the concept and its relationship to scientific thinking and creative thinking

The student should be familiar with the meaning of feedback, its types and importance for the teacher.

The student should be familiar with the theories of education and their educational applications.

The student should understand the factors affecting learning.

The student should be familiar with the skills and habits and how to acquire them and benefit from them in learning.

10. Contributing to building a healthy personality

A. Cognitive Objectives

A1- Developing the student's information in education

A2- Increasing the student's ability to become familiar with the topics of the foundations of education and their relationship to Quranic studies

A3- Creating a spirit of cognitive interaction in revealing the importance of counseling as the main starting point for solving all students' problems.

A4- The foundations of education provide its subject that is directly related to the Holy Qur'an.

A5- Identifying the areas of cognitive interdependence between the foundations of education and the Holy Qur'an.

6 - Proving the knowledge link between the foundations of education and other sciences.

7- Explaining the relationship based on the scientific field in the need of science for educational guidance.

B. Skills objectives of the course

10. General and Qualifying Skills Transferred (Other Skills Related to Employability and Personal Development).

D1- Encouraging students to deal with various educational materials in the light of appropriate technical and technical skills.

D2- Developing students' abilities to analyze the educational content to identify thinking skills and problem-solving skills.

D3- Developing students' abilities to design presentations for thinking skills.

D4- Ability to produce certain means of teaching thinking skills in English.

D5. The ability to evaluate the processes presented to the students.

Teaching and learning methods

Lecture, discussion, brainstorming and the method of groups

1- There is no optimal way to teach, but rather to combine the various and different teaching methods to create an integrated whole, we start with the lecture method, then the discussion, then the question, the answer and brainstorming, and the goal of these methods is to develop the thinking skill and increase the self-confidence of the students and..... The use of the teaching method depends on the age stage as well as the study material.

Evaluation methods

- 1- Daily Preparation**
- 2- Rapid Test (COZ).**
- 3- Monthly Exam**
- 4- Tide Test**

C. Emotional and Value Goals

ACHIEVING PERSONAL COMPATIBILITY (I.E. SELF-SATISFACTION AND SATISFYING NEEDS AND MOTIVATIONS)

SOCIAL COMPATIBILITY (I.E., COMPATIBILITY WITH OTHERS, HARMONY WITH THEM, ADHERENCE TO THE STANDARDS OF SOCIETY, COMPLIANCE WITH THE RULES OF SOCIAL CONTROL, VALUES AND CUSTOMS).

AS WELL AS PROFESSIONAL COMPATIBILITY (I.E., CHOOSING THE RIGHT PROFESSION, TRAINING IN IT, AND FEELING ACCOMPLISHED, SATISFIED AND SUCCESSFUL).

AS WELL AS EDUCATIONAL COMPATIBILITY (I.E., CHOOSING THE CURRICULUM IN THE LIGHT OF THE INDIVIDUAL'S ABILITIES AND TENDENCIES AND EXERTING THE MAXIMUM POSSIBLE EFFORT TO ACHIEVE ACADEMIC SUCCESS).

d. General and qualifying skills transferred (other skills related to employability and personal development).

Course Description Template

The course description provides a summary of the most important course characteristics and the learning outcomes expected of the student to achieve, demonstrating whether they have made the most of the available learning opportunities. It should be linked to the description of the program.

1. College	College of Islamic Sciences
2. Scientific Department	Quranic Sciences
3. Teaching Name	Prof. Dr. Saleh Majeed Ali Al-Khazraji
4. Stage	The first
5. Course Name/Code	General Arabic
6. Semester / Year	Second 2024/2025
7. Number of Hours (Total)	30
8. Date of this description	24/2/2025
9. Course Objectives	
1. Introduce students to the importance of morphology.	
2. Expanding students' perceptions and enriching them with information.	
3. Building a generation characterized by knowledge and adherence to the Book of God Almighty.	

10. Course Outputs and Methods of Teaching, Learning and Assessment
<p>A. Cognitive Objectives</p> <p>A1- Enabling students to adjust the basic rules in the Arabic language (grammar).</p> <p>A2- The student should be familiar with the importance of morphology.</p> <p>A3- The student should distinguish between grammar and morphology.</p> <p>A4- The student should be familiar with books related to morphology.</p> <p>A5-</p> <p>A6-</p>
<p>B. Skills objectives of the course</p> <p>B1 - Testing the student's knowledge of morphology through researches related to science.</p> <p>B2 - Developing a sound linguistic and grammatical sense and linguistic taste that enables them to judge texts.</p> <p>B3 - Distinguished students give a lecture in front of the students in some lessons.</p> <p>B4- The student should apply some rules of exchange to certain poetic models.</p>
Teaching and learning methods
<p>Standard method (lectures).</p> <p>Electronic lectures.</p> <p>Conducting special oral and written tests.</p>
Evaluation methods
Assessment through daily exams and class discussions
<p>C. Emotional and Value Goals</p> <p>A1- Increasing students' awareness of the importance of exchange rules.</p> <p>A2- Knowledge of the aesthetics of the Arabic language.</p> <p>A3- Knowledge of the methods and structures of the Arabic language.</p>
Teaching and learning methods
Using traditional and modern methods to try to understand students' ideas through emotional and value goals in the field of specialization.

Brainstorming method.
Method of Lecture and Discussion.

Evaluation methods

Through daily oral exams, daily written exams, as well as monthly exams

d. General and qualifying skills transferred (other skills related to employability and personal development).

D1- The ability to correct linguistic phrases.

D2- Acquiring knowledge of the characteristics and rules of morphology.

D3- General and Qualifying Skills Transferred (Other Skills Related to Employability and Personal Development).

11. Course Structure

Evaluation Method	Method of education	Unit Name/Topic	Required Learning Outcomes	Hours	The week
Written and oral test	Lecture and screen presentation	General Arabic	The importance of the Arabic language and its relationship with the Holy Qur'an	2	The first
Written and oral test	Lecture and screen presentation	General Arabic	The Emergence of Morphology	2	Second
Written and oral test	Lecture and screen presentation	General Arabic	Definition of morphology in terms of language and terminology	2	Third
Written and oral test	Lecture and screen presentation	General Arabic	The Morphological Balance and What It Eats	2	Fourth

Written and oral test	Lecture and screen presentation	General Arabic	Morphology: Arabized nouns and extreme verbs	2	V
Written and oral test	Lecture and screen presentation	General Arabic	Weights of the abstract triple verb and the weight of the abstract quadrilateral verb	2	Sixth
Written and oral test	Lecture and screen presentation	General Arabic	Verb divisions in terms of tense, past participle signs, present tense, and imperative	2	Seventh
Written and oral test	Lecture and screen presentation	General Arabic	The correct and sick verb and the sections of the sick verb	2	Eighth
Written and oral test	Lecture and screen presentation	General Arabic	The noun of the verb in terms of its pronunciation	2	Ninth
Written and oral test	Lecture and screen presentation	General Arabic	General Review	2	X
	Lecture and screen presentation	General Arabic	Final Exam	2	Eleventh

12. Infrastructure	
1- Required Textbooks	Ibn Aqeel's explanation of Ibn Malik's millennium
2- Key Reference(s)	Ibn Hisham's explanation of Ibn Malik's millennium
1) Recommended Books and References (Scientific Journals, Reports,	Arabic Lessons Collector Mustafa Al-Ghalayini
2) Electronic References, Websites	The Taste of Custom in the Art of Morphology

13. Course Development Plan (Suggested Vocabulary)

Training students to speak the classical language and repeat morphological lessons in front of their colleagues

Course Description Template

The course description provides a summary of the most important course characteristics and the learning outcomes expected of the student to achieve, demonstrating whether they have made the most of the available learning opportunities. It should be linked to the description of the program.

1. College	College of Islamic Sciences
2. Scientific Department	Department of Quranic Sciences
3. Teaching Name	Lect. Dr. Aksim Ahmed Fayyad
4. Stage	First (Morning & Evening)
5. Course Name/Code	Grammar
6. Semester / Year	Second
7. Number of hours (total) per semester	45
8. Date of this description	10/1/2025
9. Course Objectives:	
1- Building a generation of pioneers of knowledge and science to avoid melody and the integrity of the tongue from mistakes.	
2- Learn the basics of the Arabic language, expand students' perceptions and enrich their knowledge.	
3- Introducing students to the most important ancient sources of grammar.	
4- Educate students and enable them to read and write properly in a way that qualifies them to work in their certificates in the future.	

10. Course Outcomes and Methods of Teaching, Learning and Assessment:

A- Cognitive Objectives: Enable students to become familiar with a set of rules of spelling, grammar and morphology:

A1- Enhancing spelling, and knowing the positions of the primary, intermediate, and extreme Hamza.

A2- Definition of literal conjunctions, specialized noun conjunctions, and non-competent nominal conjunctions. Definition of the superfluous adjective, which alludes to the adjective and (Al) predominance.

A3- Definition of the beginner and the news, the cases of presenting the news and it is obligatory, and it is permissible, and when is it correct to start with the denial, and the cases of presenting the beginner and it is obligatory and delayed, and the copies of the sentence of the beginner and the news and its sisters, and the omission of the complete and the significance of the beginning and its sisters.

A4- Definition of the verb, the divisions of the verb, the conjugation of the verbs, and their attribution to the pronouns, and the chapters of the verb.

A5- Definition of the passive verb, the necessary and transitive verb and the sources of the verbs, the definition of substitution, spatial inversion, and the weights of verbs.

A6- Linking the previous grammar lessons with examples from the Holy Qur'an.

B . Skills Objectives of the Course:

B1 - Enabling the student to know, write, pronounce and employ the syntactic positions correctly.

B2 - Enabling students to identify the ancient sources of grammar and how to study them (Ibn Aqeel as a model)

B3 - Enabling students to write scientific assignments, and the ability to explain lessons to primary and middle school students, and enhancing self-confidence.

B4- Enabling students to employ grammar in understanding the meaning, especially the Qur'anic text.

B5- Using more than one method in explaining lectures to qualify students and enable them to understand the curriculum

Teaching and learning methods

1- Lectures in the traditional way of explanation, and the use of a blackboard.

2- Using e-learning means in explanation (PowerPoint) and displaying the lecture on the screen.

- 3- Applying the rules explained on the textbook in the explanation of Ibn Aqeel and promoting the Qur'anic examples.
- 4- Engage students in the lesson and use group systems, brainstorming, and feedback to enhance understanding of the scientific material.
- 5- Ask some students to explain an idea or issue within the topic of the lecture, and evaluate the answers from the students themselves in order to keep students attentive and enhance the topic and personality.
- 6- Providing students with the lecture through the Moodle and Classroom program.

Evaluation methods

- 1- Daily oral tests.
- 2- Monthly and quarterly written tests, by preparing meaningful questions that raise the expected scientific problems in the research. And using Google Form tests
- 3- Observe students' performance by participating in class and answering questions.
- 4- Observation of creative thinking and the ability to derive grammatical evidence in examples.

C. Emotional and Value Goals

- C1- Developing the faculty of dialogue, criticism and discussion among students
- C2- The student should go in search of grammatical topics according to his reception of the given lecture.
- C3- Introducing students to their social status and preparing them to be active in society
- A4- Voluntary response of the student in collecting some Quranic evidence to improve his level and the level of his peers in dealing with the Qur'anic text.

Teaching and learning methods

Dialogue, criticism, discussion among students, self-assessment, workshops and seminars, and electronic presentation.

Evaluation methods

Daily oral tests, monthly written and electronic tests, seminars with students, and semester tests.

d. General and qualifying skills transferred (other skills related to employability and personal development).

D1- Encouraging how to manage time, as the education process is only the implementation of the prescribed curriculum at a specific time.

D2- Providing students with the ability to read and write correctly, especially investing information in dealing with the Qur'anic text.

D3- Encouraging the exchange of understanding and information among students by urging them to review the lesson in the form of specific groups.

D4. Commitment to professional ethics and introducing it in a way that qualifies students to carry out their educational duty in the best possible way.

The course description provides a summary of the most important course characteristics and the learning outcomes expected of the student to achieve, demonstrating whether they have made the most of the available learning opportunities. It should be linked to the description of the program.

1. College	Islamic Sciences
2. Scientific Department	Quranic Sciences
3. Teaching Name	Assist. Dr. Ali Rahman Waheed Al-Musawi
4. Stage	The first
5. Course Name/Code	Human rights
6. Semester / Year	Second
7. Number of Hours (Total)	30 hours
8. Date of this description	30/12/2025
9. Course Objectives	
	1- Defines the basic concepts and terms in the subject of human rights
	2- Explains the historical stages of human rights and the extent of their development
	3- Distinguishes between rights and freedoms and the importance of each
	4- Analyzes the most important historical stages of human rights and the extent of their development

10. Course Outputs and Methods of Teaching, Learning and Assessment

A. Cognitive Objectives

1. Define the basic concepts and terms in the human rights course
2. Explain the historical stages of human rights and the extent of their development
3. Distinguish between rights and freedoms and the importance of each of them.
4. Analyzes the most important historical stages of human rights and the extent of their development.

B . Skills objectives of the course

- 1- Prepares systematic scientific research in the field of human rights
- 2- Provides oral and written scientific presentations on human rights topics
- 3- distinguishes between human rights in terms of theorizing them and applying them on the other hand in accordance with Islamic Sharia
- 4- Actively participates in scientific and societal discussions on human rights issues and their applications.

Teaching and learning methods

1. Using interactive lectures to present theoretical concepts in the human rights subject with involvement of students with discussion and motivational questions.
2. Promote collaborative learning through group projects or structured interpretive discussions, to develop dialogue and teamwork skills.
3. Conduct discussions based on Quranic values.
4. Encourage self-reflection by writing personal reflections that link what the student has learned to behavior or attitudes in life.
5. Guiding students to read and analyze basic sources from human rights books within assignments to enhance deep understanding

Evaluation methods

-

C. Emotional and Value Goals

- 1- It embodies the moral values derived from the concept of public freedoms in Islam and the avoidance of wrong practices , their consequences, and how to avoid them.
- 2- The plurality and difference in scientific opinions within the vocabulary and topics of the human rights subject in all its branches and uses shall be respected.
- 3- Contributes to community and cultural activities that establish a culture of human rights
- 4- Self-criticism and reflection are practiced in the light of human rights concepts and their practical applications.

The course description provides a summary of the most important course characteristics and the learning outcomes expected of the student to achieve, demonstrating whether they have made the most of the available learning opportunities. It should be linked to the description of the program.

1. College	Islamic Sciences
2. Scientific Department	Quranic Sciences
3. Teaching Name	Assist.lect. Noor Al-Huda Omran Mohammed
4. Stage	The first
5. Course Name/Code	Introduction to the Science of Interpretation
6. Semester / Year	Second / 2024-2025
7. Number of Hours (Total)	30
8. Date of this description	2024-2025
9. Course Objectives	
	Students are introduced to the science of interpretation and its methods
	Expanding students' perceptions and enriching them with information
	Building a generation characterized by knowledge and adherence to the Book of Allah Almighty

10. Course Outputs and Methods of Teaching, Learning and Assessment

A. Cognitive Objectives

- A1- The student should be familiar with the meanings of interpretation and interpretation
- A2- The student should be familiar with the sciences that the interpreter needs
- A3- The student should stand on the importance of the science of interpretation
- A4- The student should be familiar with the etiquette of interpretation
- A5- The student should stand on the sections of interpretation according to the scholars
- A6- The student should be aware of the origin and development of the science of interpretation in different stages of time.

B . Skills objectives of the course

- B1 - Increasing the student's knowledge of the science of interpretation
- B2 – Providing the student with knowledge of the matters that should be available to those who interpret the Book of Allah Almighty

Teaching and learning methods

- Lecture
- Discussion of the most important points in it
- Conducting oral and written tests

Evaluation methods

Through daily oral exams and daily written exams, as well as monthly and final exams

C. Emotional and Value Goals

- A1- Breaking the barrier of fear and preparing students to be qualified for education and teaching
- A2- Increasing students' awareness of their faith towards the Book of Allah Almighty
- A3- Increasing students' confidence in themselves and their religion by increasing their knowledge of the Holy Qur'an.

Teaching and learning methods

- 1- Brainstorming Method
- 2- Lecture and Discussion Method

Evaluation methods

Through daily oral exams and daily written exams, as well as monthly and final exams

d . General and qualifying skills transferred (other skills related to employability and personal development).

- D1- Thinking skills and their development in the student
- D2- Remembering skills and developing them in the student
- D3- Critical Thinking Strategy in Education

11. Course Structure

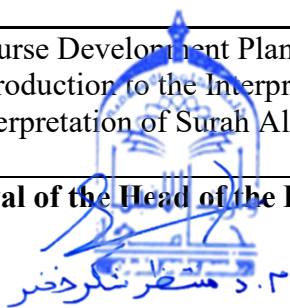

Evaluation Method	Method of education	Unit Name / Topic	Required Learning Outcomes	Hours	The week
Written and oral test	Lecture	The importance of exegesis and the need for it		2	1
Written and oral test	Lecture	Definition of Interpretation and Interpretation		2	2
Written and oral test	Lecture	The difference between interpretation and interpretation and the opinions of scholars in them		2	3
Written and oral test	Lecture	The Historical Roots of the Emergence of Exegesis		2	4
Written and oral test	Lecture	Etiquette of Interpretation		2	5
Written and oral test	Lecture	The sciences that the interpreter needs		2	6
Written and oral test	Lecture	Methods of interpretation and scholars' opinions on them		2	7
Written and oral test	Lecture	Sections of Interpretation		2	8
Written and oral test	Lecture	Directions of Interpretation		2	9

Course Description Template

The course description provides a summary of the most important course characteristics and the learning outcomes expected of the student to achieve, demonstrating whether they have made the most of the available learning opportunities. It should be linked to the description of the program.

1. College	Islamic Sciences
2. Scientific Department	Quranic Sciences
3. Teaching Name	Dr. Montazer Shukr Khader Al-Bayati
4. Stage	The first
5. Course Name/Code	Recitation and memorization
6. Semester / Year	First 2024-2025
Number of Hours .7 (Total)	45
Date of this description .8	08/10/2024

9. Course Objectives

Intermediate Objective: To provide the student with the concept of recitation and memorization and what is related to it in the recitation and memorization of the Holy Qur'an.

A- Cognitive Objectives: At the end of the semester, the student should be able to:

A1- Explains the concept of the Qur'an and its status with the Prophet and the Ahl al-Bayt (peace be upon them).

A2- Extracts examples from hadiths about the status of the Holy Qur'an among the Ahl al-Bayt (peace be upon them).

A3- Compare the prostrations of the Qur'an.

A5- Analyzes the recitation of Qur'anic verses.
A7- The first half of part 30 should be memorized.

B. Skills objectives of the course

At the end of the semester, the student must be able to:

B1 – He applies what he learned about the status of the Qur'an among the Ahl al-Bayt (peace be upon them) in his life.

B2 - Corrects his mistakes in applying some of the rulings of Tajweed during his recitation.

C. Emotional and Value Goals

At the end of the semester, the student must be able to:

C1. He shall be committed to applying the provisions of the recitation.

A2- Evaluates the performance of the recitation of others.

10. Course Outputs and Methods of Teaching, Learning and Assessment

Teaching and learning methods

Blended learning with interactive methods
Lecture or Lecture
Collaborative Learning
Problem solving
Peer Learning
Dialogue and discussion
Active Learning
Self-paced learning
Using Skinner's theory of reinforcement

Evaluation methods

Evaluation Methods:

Questions – Observation – Communication – Tests – Activities – Tasks (Physical and Electronic)

How to Evaluate :

Tribal Calendar - Formative Calendar Final Calendar

Divisions of Grades:

10 Grades: Classroom Activity

15 marks: First month exam
 15 marks: Second month exam
 60 marks: Final exam

Educational Methods and Techniques:

Whiteboard – Calculator – Listening to Audio Models
 PowerPoint presentation slides
 Electronic Wall

Presentation Program

Moodle - Google Classroom - google form – edpuzzle

d. General and qualifying skills transferred (other skills related to employability and personal development).

D1- Recognizing memory and how information is transferred from temporary memory to long memory

D2- Identify how to retrieve information from memory and recall it

D3- Identifying how to pronounce the letters correctly in the recitation of the Holy Qur'an

11. Course Structure

Evaluation Method	Method of education	Unit Name/Topic	Required Learning Outcomes	Hours	The week
Exam and Classroom Activity	Theoretical and practical	A General Lecture on the Rulings of Recitation	The student learns about the rulings of recitation	3	1
Exam and Classroom Activity	Theoretical and practical	The Concept of the Qur'an	The student learns about the concept of the Qur'an	3	2
